SUN LIFE OFFICE,

SIR,

I am directed by the Managers to acquaint you that they have determined that the PROFITS of this Society accruing from and after Midsummer 1837 shall be equally divided between the Proprietors and the Holders of Policies insuring not less than £100 for the whole of Life, namely, one moiety to each.

That Policies on which not less than Five Annual Premiums shall have been paid, whether effected before or after Midsummer 1837, shall be entitled to such participation, provided they be in force at the septennial period of valuation, the first of which will be Midsummer 1843.

The share of Profits due upon each Policy, to be appropriated at the option of the Holder in any one of the Four following ways:—

1. By a payment in then present money.
2. By an equivalent augmentation of the sum assured, payable at the extinction of the Life.
3. By an equivalent reduction of the subsequent Annual Premium.
4. By granting a separate Policy insuring the Payment at the failure of the Life of a sum which, at the time the Profits were appropriated, was just worth those Profits in then present money.

By the subjoined Table you will observe, that the Rates of this Office on Young Lives are materially lower than those of many other Offices; and that the Assured in this Office are placed in a most advantageous position.

I am,

SIR,

Your obedient servant,
 Agent.
