22<sup>nd</sup> October 1883.

Dear Sir;

The Feoffees of Colyton, Devon  
and Mr. Matthews and others.

On behalf of Mr. Charles Lewis Eyre of 22  
Surrey Street, Strand who is absent from town to whom this matter has been remitted by the Chamber  
of Feoffees and 20 men of Colyton to attend to, we  
have to communicate to you that we have perused  
<sup>between you and Mr. Gill the Bailiff of the Feoffees</sup>  
the correspondence which took place in the months  
of July and August last, and we cannot agree to  
the terms of your letter of the 17<sup>th</sup> August last in  
reply to the letter of Mr. Gill giving you the  
result of the resolution passed at <sup>a</sup> meeting of the  
Chamber of Feoffees of the 3<sup>rd</sup> August last.

In our opinion the concession so made  
to your client was most liberal, and really  
beyond what we think they, as Trustees of a  
public Charity, were quite justified in granting.

They, however, are willing to abide by it,  
provided that it is at once accepted, and a  
proper deed prepared between the Feoffees and  
your Client, at your Client's expense.

There is no evidence whatever that would  
shew that the ancient building belonging to the  
Feoffees was not a separate and distinct  
building, and granted that the building  
that was burnt down about 40 years ago may  
have gained some right of lean to against  
the building, that right has been entirely lost  
through lapse of years.

With reference to the remarks in your  
letter of the 17<sup>th</sup> August last, addressed to Mr. Gill

—  
1

that the building of your clients is an improvement to the town, this may be so, but it might equally have been an improvement to the town without touching the ancient building belonging to the Feoffees, which had its own distinct character, and which the new building has encroached upon, and most certainly the way in which the new building has so encroached, when viewed from the Churchyard, has considerably destroyed its character, and we might dilate further upon this, but it would go beyond the business character of our letter.

With regard to the subject of entering to make repairs from the adjoining property, as far as we can gather particulars this can have nothing to do with the matter now between us. We quite reciprocate the feeling that it is undesirable to enter upon a litigation between your clients and the Feoffees, and therefore, without prejudice to any further steps or proceedings which the Feoffees, in case of no arrangement being come to, should think fit to take, we have to offer you again the terms of the concession made by the Feoffees at their meeting held on the 3rd August last and request your early attention to the matter.

If you agree to carry out the terms of the Concession the better way would be for W<sup>m</sup> Charles Lewis Eype to prepare a deed, and for this purpose he would require to have the particulars of all the parties who are interested in the property

Dear Sir

Matthews

and

The Feoffees of Colyton

I have submitted your letter of the 22<sup>nd</sup> inst. to my Client W<sup>r</sup> Henry Matthews who practically represents all the parties *in juri* beneficially interested - he is quite satisfied that the rights of the Feoffees have not been in any way infringed upon and it is manifest that even if your Clients are right in their contention the new building is in no way detrimental but rather a protection to their adjoining property the Feoffees would I consider be exceeding their powers by in terms conceding any advantages which would be at all prejudicial to the Charity properly and I cannot therefore recommend any expense to be incurred in coming to what promises to be an inconclusive arrangement especially as by an outlay of small amount (in comparison with the extra cost of successful litigation) the new building can be kept entirely clear of the projecting masonry in dispute and I have advised that if the Feoffees persist in the removal of the bearings and the curtailment of the overhanging roof the better course will be for the new building to be made independent & complete in itself - your Clients ought however to understand that by the erection of a new wall there will be a small unoccupied space which will probably not be advantageous to either property and of course <sup>they cannot expect to have the</sup> privilege of entering upon my Clients premises for any purpose connected with their own by accepting the proposition in my letter to the Bailiff of the —

17<sup>th</sup> August last and forbearing to interfere with the existing state of things the Feoffees would gain a positive admission of right by the small yearly acknowledgment, their building would continue to be protected, and they would also secure the privilege whilst not interfering of entering upon the adjoining premises for all reasonable purposes connected with their own - and I altogether fail to see what advantage the Feoffees will gain by taking a course which must cause an old Colyton family to be put to an expense that might well be avoided and also an interference for a time with a new branch of industry for the town in connection with an established business. Mr. Matthews with prudent foresight wishes to avoid the expense of any further correspondence between the Solicitors and I am directed to ask you to consider that this letter conveys the conclusion which has been come to. I of course write without prejudice

Yours truly  
W. Every

LONDON, W.C.

26<sup>th</sup> October 1883.

Dear Sir,

Matthews & The Feoffees of Colyton

We beg to send you copy of our letter to Mr. Every, and of his reply.

To our Mr. Eyre the reply is quite unintelligible:

First: Mr. Every can never have seen the premises, or otherwise he could never repeat his clients view that the rights of the Feoffees have not been in any way infringed. —

Secondly: He cannot see how the new building can be kept clear of the Feoffees' house by the "removal of the bearings and the curtailment of the overhanging roof".

Thirdly: The "small unoccupied space" between 2 adjoining houses is a matter of constant occurrence, and appears to Mr. Eyre a very weak point for Mr. Every to put.

Fourthly: The offer of the privilege of entering upon Mr. Matthews' premises for any purpose connected with the buildings you will observe was not dealt with in our letter.

We do not think that it should for the present be mixed up with the question of the trespass, and upon this head we should like to have more positive information. We cannot understand the Feoffees not having a right to enter to repair their own building. — Such building must have had concurrent rights of approach on all sides we conceive, but upon this point we should be glad of further information. — The last paragraph of Mr. Every's letter is one which, as men of business, we can only smile at. It is absurd to write in such a way upon such an important matter.

Yours truly,

G. D. Sykes & Co.

Mr. W. L. Gill,

Bailiff to the Feoffees,  
Colyton, Axminster

Stogumber, Taunton.  
26 March 1868

Dear Sir

The piece of land, part  
of No 703 on the Colyton Tithe  
Map, purchased by the Seaton and  
Beer Railway Company from Sir John  
Pole, and now held by the Colyton  
Feoffees contains 1 rood 46 perches.  
of this 11 perches are exchanged by  
the Company with the Feoffees for  
the piece of land part of No 704  
taken by the Company from them.  
For the remaining 35 perches the  
Feoffees are to pay the Company  
at the rate of £100 an acre - viz - £22.

It is scarcely worth while for  
either party to incur the expence  
of deeds for so trifling a matter.  
And if you will be good enough  
to remit me the £22, the  
affair may be considered as  
settled, and the Company  
will forgo their claim upon  
the Feoffees for Interest.

I am Dear Sir

Yours truly.

To the Feoffees of the Grammar School, Colyton.

Gentlemen,

I beg to offer myself as a candidate for the Head Mastership of your school.

It will be unnecessary for me to state my experience & success as a teacher, for my testimonials will furnish you with full particulars on that head; but, I would draw your attention to the fact, that I have held my present appointment more than five years -

From my various experience in public and private schools, I feel competent to prepare boys for either a professional or commercial life -

My age is Thirty-two years - I am a member of the Church of England -

Should you do me the honour of electing me to the vacant post, I shall use every

effort to promote the welfare of your school.

I am, Gentlemen,  
Your obedient servant,  
W. M. Ellis.

An Estimate for proposed work to be done at Mrs Francis Slaughter's House  
Honiton

To take down the present End wall & rebuild it to take the Roof. To take  
down the old Roof & fix new Deal Roof with two pair new principals  
& carry ends of Beams & Rafters into the gorming wall & lay Roof  
Deal Bottom for to take brace gables & sloping wall between Rafters  
& Cores Roof with Dun color Tile & new Ridge crest Take down  
Shutting & refix Do & make good the Boarding to Roof I will engage  
to execute the work in a sound & satisfactory manner for the  
sum of fifteen pounds twelve shillings & six pence

£15-12-6

Or to cover ~~over~~ the Roof with slate which I would recommend  
to be done as the Roof must be risen one foot higher in the  
centre to take the Tiles as it is very flat now & slate would  
cost the same pds for the sum of five pounds more  
or at Valuation when finished

Colyton Grammar School  
August 1880

To the Chamber of Feoffees, Colyton.

Gentlemen,

I have much pleasure in reporting that this School, which has now been under my charge for a year, has, during that time, been steadily increasing in numbers; so that there are now 30 boys on the books, of whom 27 were in attendance last Term. This is inclusive of the 6 Free Boys, who, I am glad to say, have been thoroughly well conducted, regular in attendance, and, on the whole, have made good progress in most of the subjects taken. I must however say that I find the majority of the boys from this district are extremely backward - Reading, Writing, and Spelling being especially bad.

I hoped to have had an examination of the School by a properly qualified Examiner before the end of the last Term, but as the Hay-harvest approached so the boys were kept at home to assist, and I therefore thought it would be better to ask the Chamber to appoint an

Examiner for the early part of December next  
so that we may have as few absentees as possible

I remain, Gentlemen,

Yours very truly

As instructed by you I measured the wall lately erected at Mr. Towner's garden and found it a few feet more than charged for.

The part at the end of the garden was erected too late in the year and is consequently blistered by the frost.

Mr. Newton offers to re-cope his park later on provided you will have all the top of the wall covered or coated with tar.

I must remind you that the drain from this property has not been attended to and would also add that the sanitary slate of the yard is simply disgraceful.

In company with Mr. Stoker I inspected the premises occupied by Mr. Pratt, Butcher, and those behind Mr. Chard's. Some slates from the roof of the Cattle Shed were blown off, and a little of the wall over the door in the back Lane had fallen down, in both of these cases we ordered the proverbial "stitch in time".

We were unable to discover the cause of the  
smell complained of by Mrs Mundy, but we  
found a quantity of mineral oil stored on  
the premises, and we beg to suggest that  
this matter be placed before the Insurance  
Company to ascertain if our policy is thereby  
cancelled

Dear Sirs

Yours sincerely,
